

Sprint 1 March 9 - 14

-Scrum Master: Karsten

-Tasks

- Update requirements docs and update our diagrams (Connor)
- Unit tests to cover each view/model (Everyone)
- Slideshow carousel (Tyler)
- Styling (Karsten)
- Get pictures for tools (Connor)
- Tool shed logo (Mark)
- Update the navbar and tabs associated with it (Tyler)
- Shopping cart (Connor/Tyler)
 - Check out button with alert that submission successful
 - Update database accordingly upon checkout and empty cart
- Login *if possible* (Karsten)

Sprint 1 Retrospective:

What went well:

- All tabs have most of the content needed
- We all were responsible enough to keep up with our deadlines
- We were able to communicate well even though the corona virus took over
- Team members reviewed pull requests quickly
- Cart is mostly working

What didn't go well:

- Need a way to display what is in the cart
- We still have not created any unit tests
- Requirements should be discussed with all team members before implementing
- Styling was limited by page organization

What specific things you can do to improve:

- Discuss clearly how we want to implement requirements before implementing

Measurement criteria:

- Tool picture
- Shopping cart
- Styling
- Slideshow carousel
- Contact us

- NavBar tab pages
- Create tool button

Team Member Percentages:

25% for all

Sprint 2 March 15 - 21

-Scrum Master: Connor

- Check if documentation needs to be updated (All)
- Admin login (Karsten)
 - Separate admin and user pages and functionality
- Updated styling (Karsten)
- Separate home/all tools (Karsten)
- Shopping cart (Connor)
 - Display items in cart
 - Don't let them add to cart if there are no available tools
 - Add a delete from cart button
 - Do the quantity checked out
 - Shopping cart detail page?
- Unit tests (Mark)
- Project page (All)
 - 1 per person
- History page (Tyler)
- Edit a tool (Tyler)

Sprint 2 Retrospective:

What went well:

- Django's built-in tools made it easy to create view authorization
- Shopping Cart is mostly finished
- Additional requirements have been pretty much completed
- Check in and check out is working

What didn't go well:

- Styling and organizing the views got backed up by other functionality being implemented.
- Probably need a shopping cart confirmation screen
- Documentation?
- We didn't all finish the Project Page

What specific things you can do to improve:

- More unit tests

- Make sure our documentation is complete

Measurement criteria:

- Shopping Cart
- Documentation
- Admin Login
- More Styling
- Unit tests
- Project Page
- History Page
- Edit Tool

Team Member Percentages:

25% for all

Sprint 3 March 22 - March 28

-Scrum Master: Tyler

-Update the shopping cart formatting

-get a navbar template

- Separating the user and employee pages (Karsten)

- Styling in general (Karsten)

- Unit Tests

- Date system

- Bug fixes

Sprint 3 Retrospective:

What went well:

- Website looks clean and is styled throughout
- Employee login adds functionality and restricts common users from admin privileges
- Can only have a max checkout of 5 tools
- Styling in the shopping cart drop down improved
- Project page completed
- Kept track of standups on scrum board and used github issues for our backlog
- Found and fixed several bugs

What didn't go well:

- Shopping cart confirmation screen

What specific things you can do to improve:

- Plan our sprints so we have more time and work is more evenly spaced out

Measurement criteria:

- Shopping Cart
- Documentation
- Admin Login
- More Styling
- Unit tests
- Project Page
- History Page
- Edit Tool

Team Member Percentages:

25% for all
